Braeckman - Appel/Pommes - 20% - 70 cl
JENEVER —

Domain

Braeckman

Malt wine (grain distillate) is the basis of all true genever. Braeckman is one of the last remaining distillers who produce their own malt wine in-house. Braeckman malt wine is made exclusively from rye and malted barley, two indigenous grains. Malt wine adds a complex and rounded grain flavour to the genever. Alongside the malt wine, a herb distillate is added which contains juniper berries and a mixture of other herbs, seeds, peels and spices. This distillate gives the genever a pleasant and refreshing touch.

Vinification

The liqueurs are mixed with a high percentage of natural fruit juices. The use of natural fruit juices adds a refreshing and full fruit flavour. No artificial aromas, no artificial colourings, and no artificial flavourings are added.

Taste

Intense, sweet flavour of apples.

General information

Type: Apero & Digestif

Storage (years): > 10
