Braeckman - Oude Graanjenever - 38% - 70 cl
JENEVER —

Domain

Braeckman

Malt wine (grain distillate) is the basis of all true genever. Braeckman is one of the last remaining distillers who produce their own malt wine in-house. Braeckman malt wine is made exclusively from rye and malted barley, two indigenous grains. Malt wine adds a complex and rounded grain flavour to the genever. Alongside the malt wine, a herb distillate is added which contains juniper berries and a mixture of other herbs, seeds, peels and spices. This distillate gives the genever a pleasant and refreshing touch.

Vinification

Oude Braeckman is made with 25% malt wine distilled from rye and malt, matured for 6 years on American oak barrels. This gives our old grain genever a rounded and mature character. Subtle touches of juniper from the herbal distillate are present in the background.

Taste

Aged grain genever with a characteristic full grain flavour and rounded touches of oak.

General information

Type: Apero & Digestif
