Domaine de l'Idylle - Roussette "Anne de Lusignan" | Roussette De Savoie Altesse | BIO France (SAVOIE) — 2024

Domain

Dom. de l'Idylle

This is a family domain, 22 hectares in size. They mainly produce wines from local grapes, Mondeuse, Roussette and Jacquère. Their southeastern slopes consist of clay and limestone gravel, where the grapes find their favorite terroir. They are certified with the High Environmental Value (HVE), which confirms the efforts they have been making since a few years to drastically reduce the supply to the vineyard and the cellar, as well as respect for our soil and biodiversity.

Vinification

Manual harvest, followed by a long, temperature-controlled maceration at 15-17 ° C. The wine ripens on its lees for 6 months, which makes this roussette more voluminous and richer.

Taste

Complex nose with ripe fruit (mirabelle, apricot). Characteristic keys of ripening on lees (fresh butter, brioche). The mouth is balanced, with a nice freshness in the aftertaste.

Food pairing

Salades | Cheese | Raw vegetables

General information

Type: White wine
Grape varieties: Altesse (100%)
Viticulture: Organic
Storage (years): + 3-5
Serving temperature: 10-12 °C
Taste profile: Aromatic fresh
