# Domaine de l'Idylle - Persan | Arbin Persan
# France (SAVOIE) — 2024

**Domain**

**Dom. de l'Idylle**

This is a family domain, 22 hectares in size. They mainly produce wines from local grapes, Mondeuse, Roussette and Jacquère. Their southeastern slopes consist of clay and limestone gravel, where the grapes find their favorite terroir. They are certified with the High Environmental Value (HVE), which confirms the efforts they have been making since a few years to drastically reduce the supply to the vineyard and the cellar, as well as respect for our soil and biodiversity.

**Food pairing**

Cheese - Raclette | Steak - grilled
