Weingut Ritterhof - Blauburgunder | Südtirol DOC Italy — 2025

Vinification

After the traditional vinification of the Pinot Noir grapes on open fermentation tanks, the wine matures in both large wooden barrels and smaller barriques. The grapes usually reach their optimum ripeness between the beginning and the middle of September and are picked by hand. The yield is 65 hectoliters per hectare.

Taste

This Blauburgunder Jansen is more of a classic Burgundian style by Pinot Noir, with hints of raspberry, currant and cherry in the nose and mouth. Very elegant and structured in the mouth with a medium finish.

Food pairing

Meat - red, grilled | Charcuterie | Cheese - aged

General information

Type: Red wine
