

## **Domain**

### **Az. Monte del Frà**

The domain of Monte del Frà is situated in the heart of the Custoza region, east of Lake Garda, 15 km from the center of Verona. It was founded in 1958 by the Eligio brothers and Claudio Bonomo. Today the domain covers around 100 hectares. All vineyards are fully equipped with an irrigation system, so that the vines receive the necessary nutrition every season, which forms a perfect basis for the Monte del Frà wines.

Thanks to the dedication of the Bonomo family and the attention they devote to every step of the production process, the wines became very popular, both in Italy and throughout Europe. Their wines have been selected on the international market as the most representative of the Verona region.

## **Vinification**

All vineyards are fully equipped with an irrigation system, so that the vines receive the necessary nutrition every season, which forms a perfect basis for the Monte del Frà wines. The grapes undergo a very soft pressing and also a short cold maceration before the fermentation starts. The fermentation itself is long and delicate (with contact on the grape skins) and is temperature controlled in stainless steel barrels.

## **Taste**

Pale red color. In the nose aromas of flowers, cherries and herbs. It is a pleasant and smooth drinking wine, elegant on the palate with some acids in the final. It is a nice wine to pour in the summer at cellar temperature.

## **Food pairing**

Light meal, Fish, Salad - summer salad, Cold dish
