Bodegas Hispano+Suizas

Bodegas Hispano+Suizas was born from a dream shared by Marc Grin, Pablo Ossorio, and Rafael Navarro. After spending half their lives working in the wine industry, they decided to bring their own wines to market. Their goal was to take full control of the entire production process, from growing the grapes to bottling the wine. To involve, or perhaps delight, their wives, they named the winery after the home countries of their partners. Bodegas Hispano+Suizas is located in the Utiel-Requena DOP, a wine region situated halfway between the Meseta (a plateau in central Spain) and the Mediterranean Sea. The climate they benefit from is ideal for producing excellent wines at an accessible price point. In total, the estate comprises 61 hectares of vineyards, planted with a wide variety of grape varieties, predominantly red grapes.
