# Spain (CATALUNA) — 2024

**Domain**

**Sios**

The domain, which belongs to the Porcioles-Biuxo family, is located in the Noguera region, which belongs to the DO Costers del Segre. This is an appellation situated along the river Segre in the northwest of Cataluña. The "Segre" is one of the most important tributaries of the Ebro, which originates in the French Pyrenees and flows into the Catalan province of Lleida. It is a very large domain with an area of ??700 ha of which 71 ha is used for viticulture.

**Vinification**

The wine ages 4 months in French barrels of 300 liters. Each variety is harvested separately when the grapes have reached their optimum maturity. The alcoholic fermentation happens at 22 ° C for 15 days.

**Taste**

Medium to deep cherry red color with purple appearance. Nice balance between fruit and wood. Floral notes and aromas of red berries in the nose. Nicely structured with some fruitiness in the middle palette. Tasteful finish.
