

Bodegas Del Medievo – Tuerce Botas | Rioja DOC Tempranillo Blanco Spain (RIOJA) – 2022

Domain

Bodegas Del Medievo

The vineyards of Bodegas del Medievo are the most important property of this winegrower. They cultivate 4 traditional grape varieties: Tempranillo, Garnacha, Mazuelo and Graciano. The vineyards extend all the way to the highest area of Aldeanueva de Ebro.

Vinification

Tempranillo blanco is a mutation of the red variety, discovered in 1988. There are only a few winegrowers in the world with this grape planted. The fermentation takes place in stainless steel vessels at a temperature of 12 ° C. They do not allow the malolactic fermentation to preserve the acidity and fruitiness.

Taste

This wine has a pale yellow color with aromas of white fruit and stone fruit. It is aromatic on the nose and very soft on the palate, with a spicy touch and a long, floral aftertaste.

Food pairing

Salad with french dressing | Meat - white | Crustacea | Aperitif
