Sios – Nature | Costers del Segre DO Catalunia Syrah | BIO Spain (CATALUNA) – 2023

Domain

Sios

The domain, which belongs to the Porcioles-Biuxo family, is located in the Noguera region, which belongs to the DO Costers del Segre. This is an appellation situated along the river Segre in the northwest of Catalunya. The "Segre" is one of the most important tributaries of the Ebro, which originates in the French Pyrenees and flows into the Catalan province of Lleida. It is a very large domain with an area of 700 ha of which 71 ha is used for viticulture.

Vinification

Hort del Marcial is a small organic vineyard, measuring 2.1 hectares, which produces our most emblematic Syrah grapes. The grapes are harvested manually in 15kg boxes. After a thorough selection process, the grapes ferment spontaneously in open French oak barrels. Spontaneous alcoholic fermentation with continuous manual "pigeages" for 10 days. SIOS NATURE is the truest and purest expression of our Syrah grapes. A limited production of 7,950 bottles.

Taste

Clean and bright, deep garnet in colour with violet highlights. Expressive and complex. Notes of red and black fruit (blackberries, plums and black cherries) combine with a spicy aroma. Full bodied and elegant. The red and black fruits and spices appear again, perfectly balanced by an acidity, giving it freshness.

Food pairing

Pate | Duck breast filet - smoked | Cheese - cheese pater

General information

Type: Red wine

Grape varieties: Syrah (100%)

Viticulture: Organic

Storage (years): + 2-3

Serving temperature: 15-17°C

Taste profile: Smooth juicy
